

Modern Mind Mapping for Planning, Task Management & Collaboration

Ayoa delivers an inclusive, **all-in-one solution** for students, making it easy to plan assignments, manage tasks, and collaborate with others.

Access Ayoa on multiple platforms:

Web

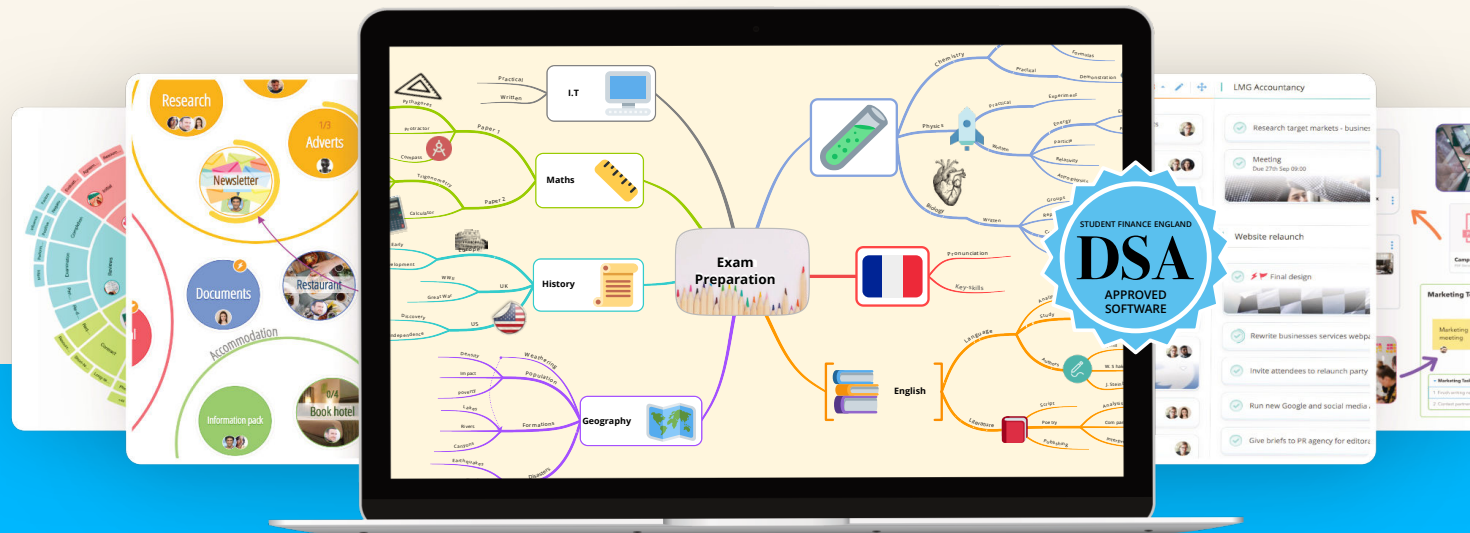

iPhone

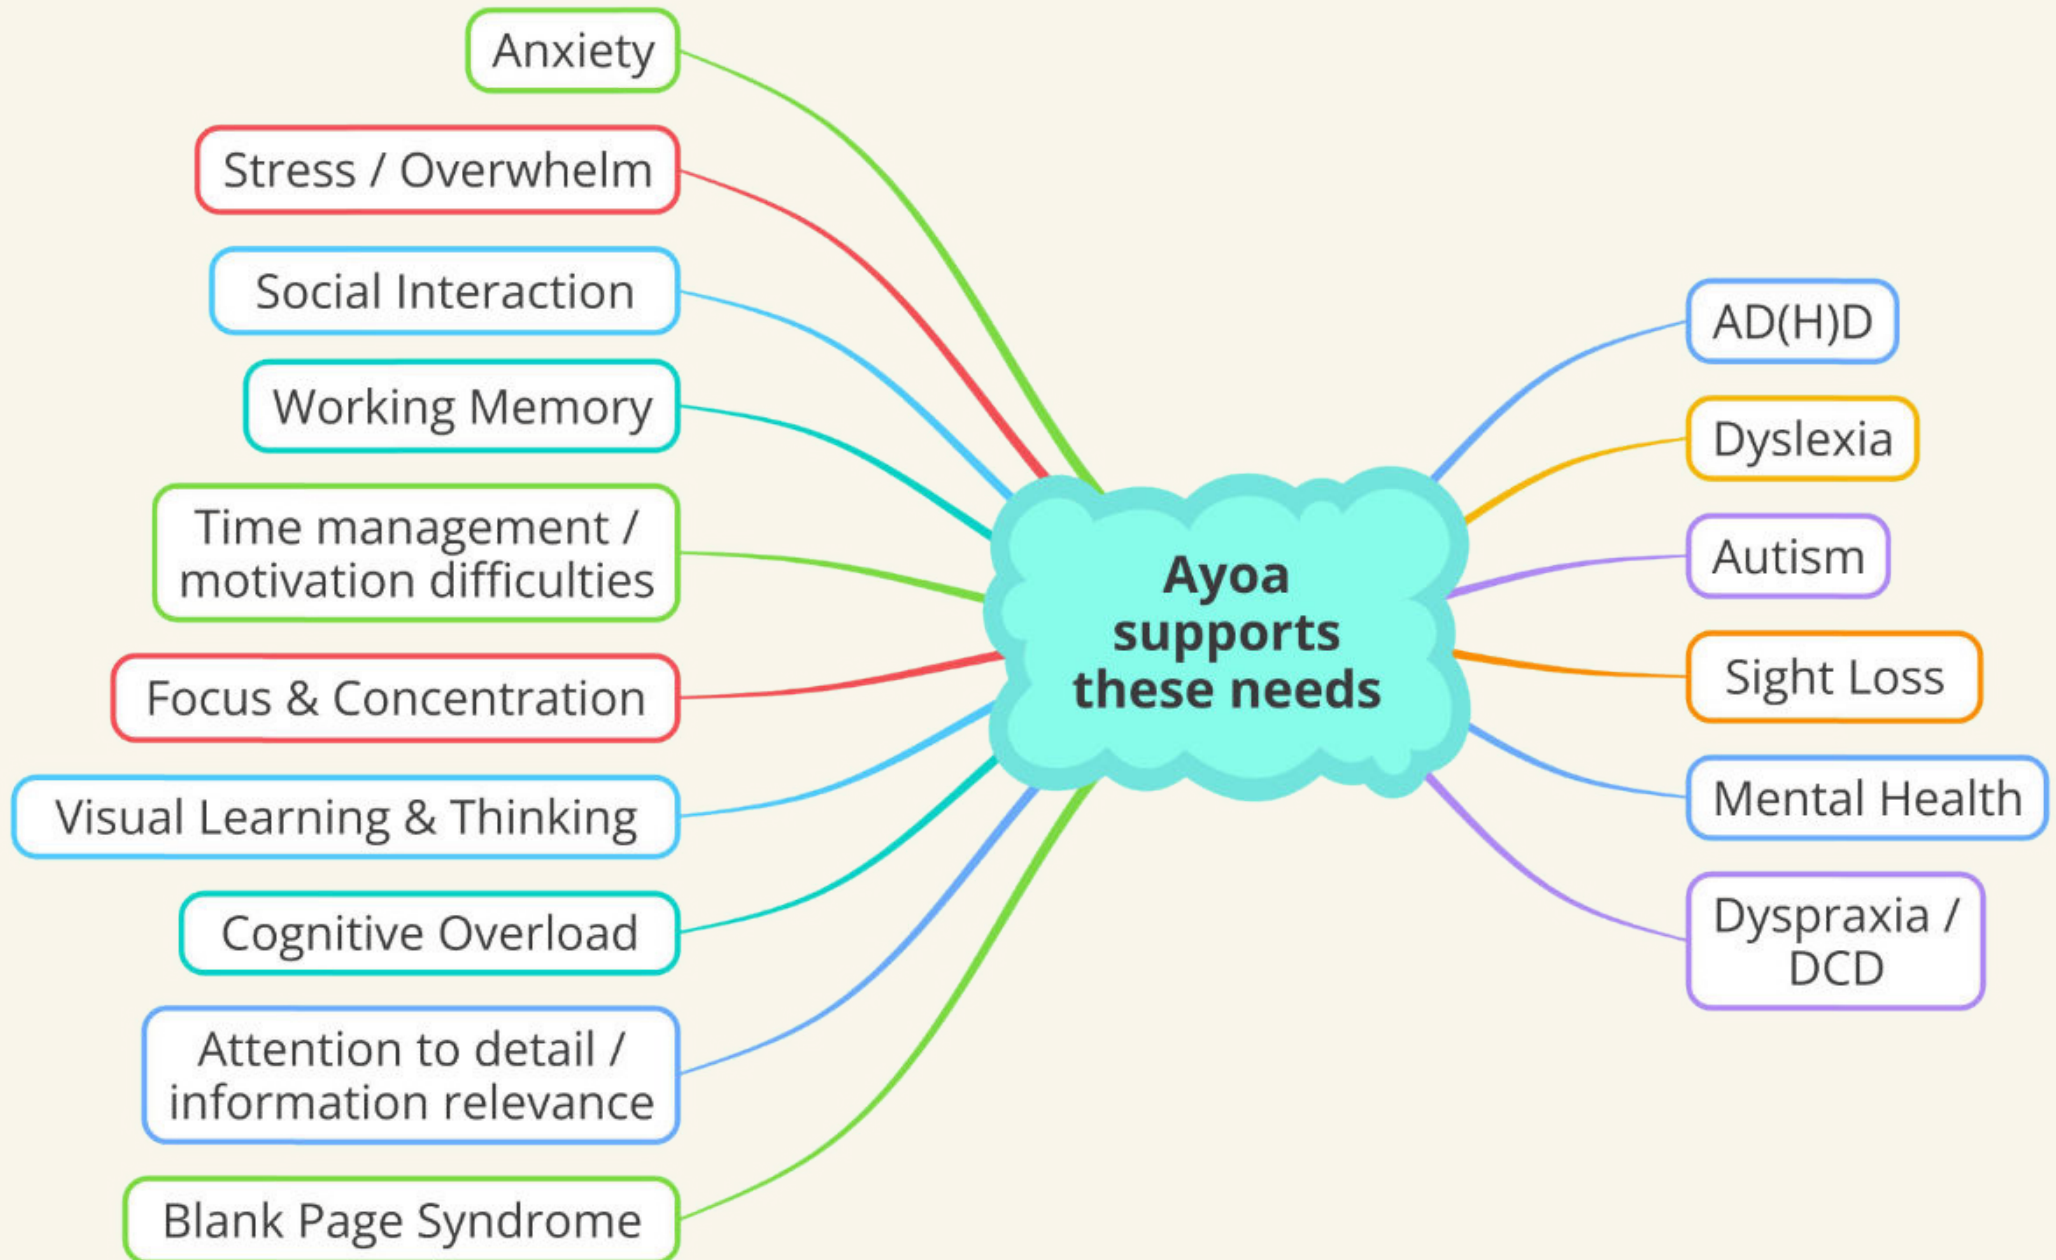

iPad

Android

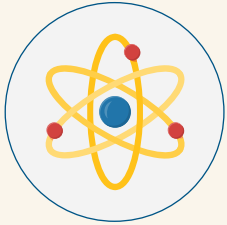

Tips for recommending Ayoa:

Student Need:	Ayoa Solution:
<p>Focus and concentration</p>	<ul style="list-style-type: none"> • A visual planning strategy will support concentration when students are struggling to organise their thoughts and will help them to make strong connections with their ideas and arguments. • They can use the mind map feature to conceptualise their ideas which they can then organise into a logical structure. • Ayoa DSA also has the capability of allowing voice notes to be added to plans which will support the student during the process as they find speaking their ideas aloud beneficial. • Ayoa's toolbar customisation and Auto Focus tool hide unnecessary buttons and information, allowing the student to further focus their attention.
<p>Attention to detail / information relevance</p>	<ul style="list-style-type: none"> • Students can add notes and comments to their bubbles which will help them to add more specific detail. • The Idea Bank can be used to store ideas that do not have a place in their plan but can be incorporated later when they review the information. Helping the students to identify whether the evidence is relevant to their chosen topics.
<p>Short Term Memory</p>	<ul style="list-style-type: none"> • Idea bank reduces cognitive overload by allowing students to get ideas down quickly without having to decide where to add them to their mind map

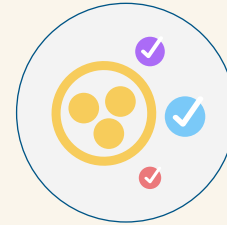

Tips for recommending Ayoa:

Student Need:	• Ayoa Solution:
Time management / motivation difficulties	<ul style="list-style-type: none"> • Ayoa's visual task management with user-defined categories will reduce the student's feelings of overwhelm and allow them to plan their work and tick off tasks as they complete them, with help from a supporter if needed. • Tasks can be visualised in Workflow or Canvas mode or displayed as a Gantt timeline to suit individual student preference, helping the student to complete tasks when experiencing periods of low mood and motivation
Anxiety	<ul style="list-style-type: none"> • Visual task management with user-defined categories reduces overwhelm and allows students to plan their academic work with help from a supporter
Social Interaction	<ul style="list-style-type: none"> • Ayoa promotes group work collaboration by providing a free version to all students, allowing project collaboration, all within the Ayoa app
Mobile solution	<ul style="list-style-type: none"> • Ayoa is browser-based so students can access their work across multiple devices allowing them to work from their accommodation or on campus. • Ayoa has dedicated mobile apps so students can update their work on the go from their Apple or Android smartphone or use Ayoa on a tablet if they do not have access to their own computer.

Modern User Interface

A clean and intuitive interface motivates students by eliminating cluttered menus, making tool discovery effortless and encouraging software usage

True Task Management

Allows students to manage their academic tasks within user-defined categories, reducing anxiety and overwhelm

Real Collaboration

Allows students to collaborate on planning, task lists and whiteboards and chat with group members and supporters, all within the software

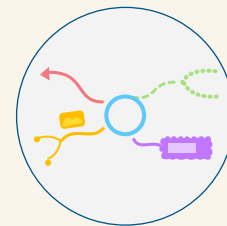

Whiteboards

Allows creative note-taking with the ability to add text, sticky notes, images and attachments or start with one of the proven templates

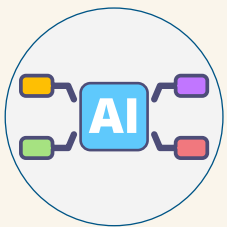

Idea Bank

Allows students to keep track of their ideas and add them to their mind map at a later point, so that they are not forgotten

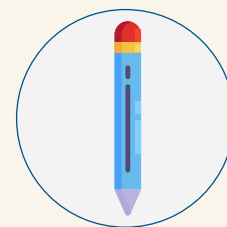

Mind Maps

Students can organize and visualise their ideas, making studying and project planning easier and more effective.

AI Support

Ayoha DSA includes neuro-settings that support neurodiverse learning and suggest ideas to help avoid blank page syndrome

Accessibility

Allows users to set default font type, size and background colours, ensuring their work is accessible from the start
